

Standing with businesses in the moments that matter.

Mackay Goodwin Corporate Advisory
Capability Statement

We see our purpose as supporting and guiding businesses; we're on their side and in their corner.

Standing with businesses in the moments that matter.

We provide the support you need to make the right decision at critical moments whatever stage your business is at.

About Us

Mackay Goodwin Advisory brings smart, commercial, solution-oriented advice to corporate advisory clients and transactions. This starts with intimately understanding our clients' business, corporate objectives and markets and industry sectors in which they operate.

Our corporate advisory team has a wealth of corporate transactional and advisory experience across a range of sectors, including renewables, resources, technology, financial services, FinTech, infrastructure, retail and e-commerce, hospitality, communication and information technology, manufacturing, health, agriculture, energy, education, general industrial companies and government.

A particular emphasis of Mackay Goodwin Advisory is assisting clients responsibly and meaningfully navigate the ESG (Environmental, Social and Governance) landscape. Our mission is to help businesses identify and reduce ESG risks, manage and transition ESG disruptions, and capture unique and compelling transaction opportunities as we all make the transition to a sustainable-growth, low-carbon global economy.

The advisory team helps clients to navigate through the increasingly complex corporate and regulatory environment in Australia. We provide stakeholder engagement and process management for corporate advisory transactions on a range of corporate issues.

Our Core Expertise

- **Corporate Advisory** on mergers and acquisitions (M&A), corporate takeovers, schemes of arrangement, disposals, divestments, demergers, dual listed company structures, reverse takeovers and takeover defence transactions
- **Equity capital markets advice** including equity raisings, IPOs, equity placements, hybrids and convertible securities and rights issues
- **Debt capital markets advice** including working capital and revolving credit facilities, bi-lateral loans, syndicated debt facilities, bond and private placement issuances, hybrid instruments and related hedging strategies
- **Private equity and venture capital** including fund establishment, mandate structuring, investment identification, M&A execution, business integration and exit transactions

Other corporate advisory services include but are not limited to:

- Defining and implementing ESG strategies and plans
- Investment planning, defining corporate objectives and investment criteria
- Capital management strategies, including buybacks, dividend policies and capital reductions
- Advice on strategic organic growth, geographical diversification, scalability of business and de-risking scenarios
- Commercialisation strategies, region adoption and market segment expansion
- Investment, business and performance monitoring
- Risk management strategies (including hedging, credit and rates, commodity trading strategies)
- Management and leveraged buy-outs
- Joint ventures, shareholder arrangements, other business combinations, management and operational structure
- Regulatory and government support scenarios (taxonomy considerations)

Corporate Advisory

The Australian M&A landscape is constantly changing. It is complex, highly regulated, and subject to market scrutiny from regulators and key stakeholders.

Our corporate advisory team members are recognised and respected in the marketplace for their global experience, skills and expertise in complex M&A transactional work and their understanding of the regulatory environment in Australia and internationally.

We aim to provide the highest quality advice to help clients manage their transactions. We strive to work effectively and efficiently with all stakeholders from beginning to end to achieve successful and optimal transaction outcomes.

Our client		Investment dynamics			
Capital Structure		Risk	Return	Ownership	Performance
Assets	Debt	Low risk	Low return <ul style="list-style-type: none"> • Interest • Capital back 	No ownership rights	Temporal
